ABOUT US

Established in 1931, Yat Guan specializes in wooden pallets, crates, and packaging materials. Our headquarters in Singapore serve major manufacturing companies like ExxonMobil and Abbott.

From humble beginnings on Church Street, we grew and expanded to multiple sites in Singapore. Despite the Bukit Ho Swee Fire in 1961, we recovered and flourished.

With a manufacturing base in Malaysia, we now serve clients in Singapore, Malaysia, and Indonesia.

Developing a Safe and Healthy Working Environment

OUR SERVICES

01

PACKING SERVICE

Yat Guan excels in industrial packing for marine, logistics, construction, manufacturing, and semiconductors. Skilled packers ensure top-notch service. Share your needs for tailored solutions with us.

02

PALLET REPAIR

Optimize your warehouse with Yat Guan. Our professional pallet repair services reduce costs and enhance efficiency, ensuring seamless management of damaged pallets in high-volume rotations.

03

SOURCING

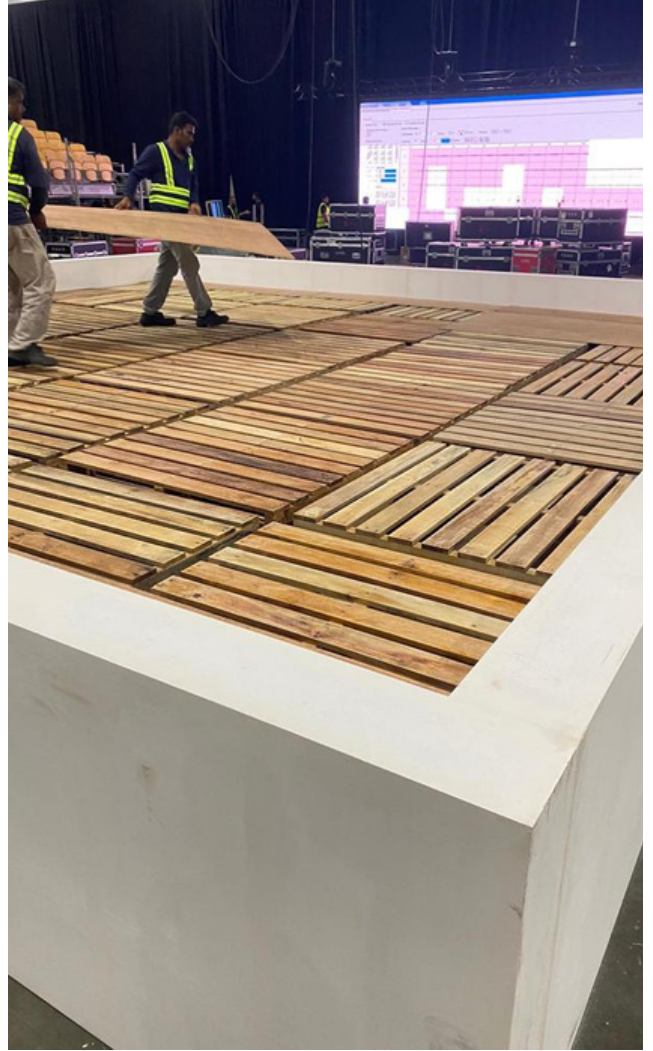

Yat Guan sources and processes timber and plywood to your specifications. Our skilled carpenters ensure strict compliance with Quality Control standards. Count on us for high-quality and tailored materials.

04

TREATMENT

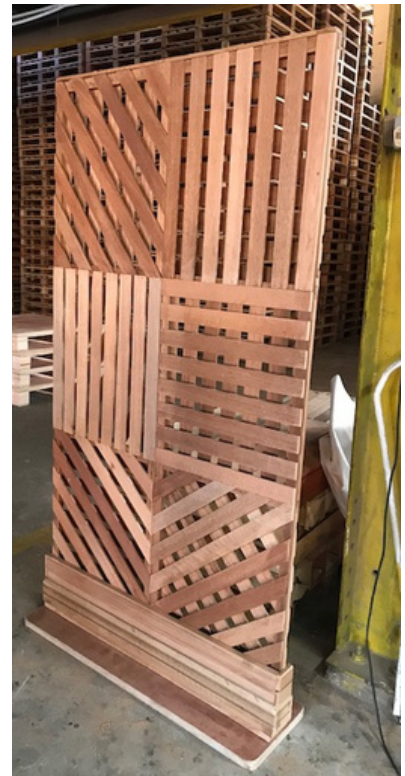

Yat Guan offers heat treatment, kiln drying, and fumigation. Our treatments eliminate wood pests, preserve timber, and prevent mold growth, ensuring the quality and longevity of your packaging materials.

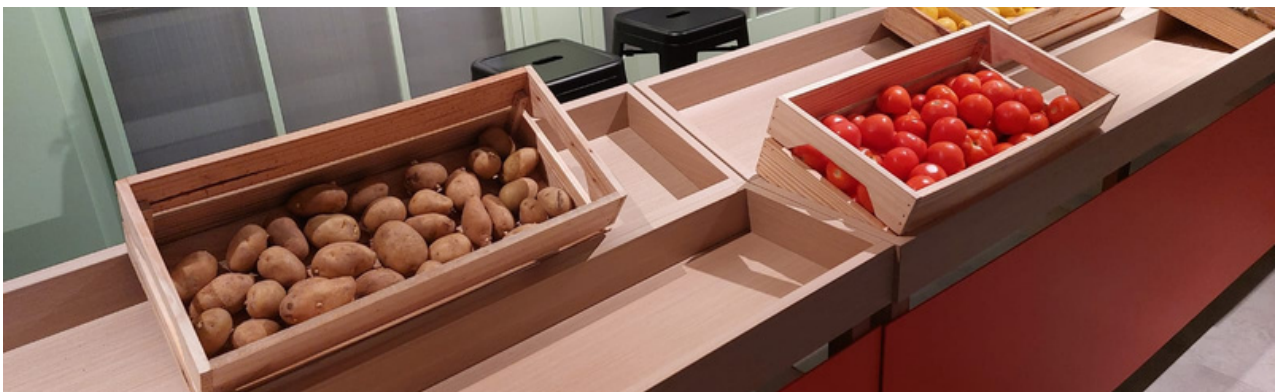

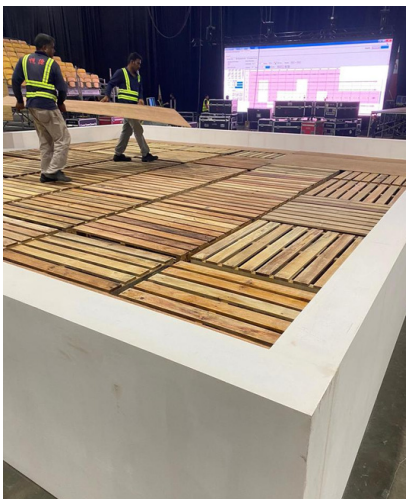

05

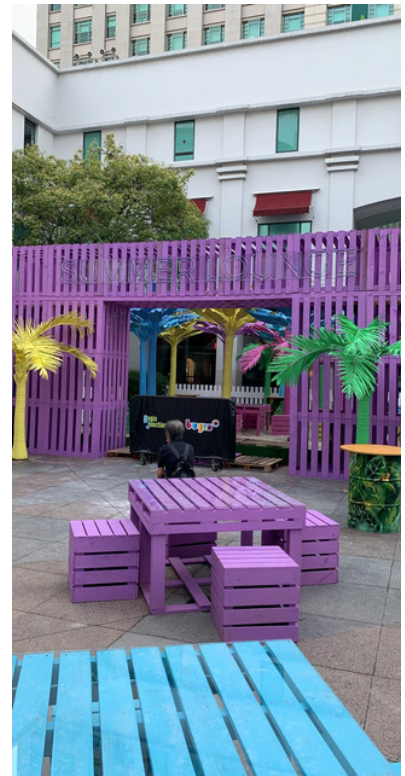

EVENTS

Yat Guan specializes in seamless event services, delivering and setting up our exquisite wooden products at your venue. We ensure a stress-free experience by handling all aspects, from installation to packing up post-event.

*Example:

Length x Width x Height (mm)

A close-up photograph of a wooden workbench. In the foreground, a pair of silver-colored calipers lies on the surface. Behind it, a long metal file and a chisel with a wooden handle are visible. The workbench is covered with numerous light-colored wood shavings and small chips, suggesting recent woodworking activity. The lighting is warm and natural, highlighting the textures of the wood and metal.
